

Model KDT-123 Yacht Horn

Kahlenberg Chimetone Air Horns all utilize more than one projector or “trumpet” in their design. These projectors each produce a different fundamental frequency which combine to produce powerful, distinctive, musical chords. To hear a Chimetone Air Horn is to realize that the sound of a vessel can be one of its most impressive aspects. The Model KDT-123 Air Horn is designed for the most discriminating yachtsman. It is made entirely of bronze and brass, and is available in triple chrome plate or a variety of other optional finishes.
